

TIMEX® **internet**
messenger™ watch

timex.com

1

user guide

Congratulations You have just purchased a Timex® Internet Messenger™ Watch. It combines the attractive styling and popular features of our Ironman® Triathlon® sports watch with Motorola® state-of-the-art wireless messaging technology and the vast paging network of SkyTel®.

It's an Internet Messenger Watch

- provides convenient, on-the-wrist info
- receives content from the Internet – email, news, sports scores, stock quotes, weather, horoscopes and much more!

It's a Pager

- with numeric or word messaging
- that scrolls across the watch display
- and holds up to 16 messages of up to 100 characters each, plus info services – total of 1250 characters
- with silent vibrating or audible music alerts

It's a Sports Watch

- with FLEXtime™ to automatically set and maintain time and date accuracy
- and All Day Indiglo plus
- INDIGLO® night-light with NIGHT MODE® feature
- 8-lap memory, stopwatch and timers
- 2 time zones, 5 alarms

1 Install the Watch Battery

Step 1: Peel Off Battery Protector

The battery has a protective covering and will not work unless the covering is removed. Simply peel off the covering using the tab and let the battery breathe (vent holes facing upwards) for **2 minutes** before putting it into the watch.

Step 2: Remove Battery Lid

To remove the battery lid, turn the lid counterclockwise by pushing against the raised portion of lid with fingers.

Step 3: Place Battery in Watch

Place the battery in the battery compartment + (positive side) facing up.

IMPORTANT: Please remove expired batteries to prevent leakage.

Step 4: Replace Battery Lid

Replace the battery lid. Turn clockwise to close.

Battery Type: Size 675

The battery is a size 675 common *zinc-air hearing aid battery, not a watch battery*. Expected battery life will vary depending on watch and pager usage.

Energizer 675 battery cell recommended.

2 Use the SkyTel Services Guide to Connect With SkyTel

Open the enclosed activation guide. Review the materials. Call SkyTel and set up your paging service.

3 Set the Time on Your Watch

With FLEXtime (see page 8), your watch will receive the time and date through the pager and automatically set itself. Or set it manually, (see pages 9-10).

4 Get to Know Your Watch Features

Open the chart on the inside back cover to get an overview of the watch modes and functions.

WATCH BUTTONS

The symbols below are used to identify the five watch buttons.

Press the **INDIGLO** night light button to illuminate the watch face.

The **MODE** button presents the main operations of the watch.

M

F

Press the **FUNCTION** button to show the options within each mode. (See mode/function chart on inside back cover.)

Press the **◀** button (bottom left) to move backward (or to peek at 2nd time zone from Time of Day screen).

Press the **▶** **READ** button (bottom right) to move forward (or to read pages).

WATCH MODES

Time of Day is the main display shown on the watch. Press and release the **mode button** to advance through the modes.

| Press | Mode |
|--------------------------|----------------------------|
| | Time of Day |
| M | Pager |
| M <i>again</i> | Alarm |
| M <i>again</i> | Chrono (stopwatch) |
| M <i>again</i> | Timer |
| M <i>again</i> | Return to Time of Day mode |

Note: You can also access pager mode by pressing **▶** from main display (time of day).

HOW TO READ THE WATCH

In time of day mode, your watch looks like this:

When you read a personal page, your watch looks like this:

At the end of a message, time and day stamp appears:

FLEXTIME EXPLANATION

WHAT IS FLEXTIME?

FLEXTIME is a feature that enables your watch to receive the time and date through the pager to automatically:

- ① Set and maintain the correct time and date
- ② Change the time for daylight savings time
- ③ Change to local time as you travel to different time zones, if you desire

HOW DOES FLEXTIME WORK?

Your watch automatically begins listening for FLEXTIME data as soon as you put a battery in it. The FT icon flashes. Your watch may set itself in a matter of minutes. If FLEXTIME is not yet available in your area, you must set your watch manually.

Your watch is preset to display local time which may change as you travel to other time zones. Both time zones will be set to the same time. You may change these settings to a different time zone (see page 9 "set watch time"). If you don't want the time on your watch to change as you travel, or if your watch sets itself to a time zone other than your own, you will have to select a specific time zone to display, other than "Local."

Remember, FLEXTIME only works when the pager is on and you are in SkyTel's coverage area.

A CHANGE IN DAYLIGHT SAVINGS TIME (DST)

A FLEXTIME DST adjustment will cause a time adjustment pop-up message on your watch. No alert will sound. Press any button to end the pop-up message.

WATCH SETTINGS

The following **F**unctions are available from the time of day mode.

| Press | To... | Then press... |
|----------|-------------------------|---|
| | from Time of day | |
| | for FLEXTIME setting... | (recommended) |
| F | Set watch time | ▶ to select timezone to set (TZ1 or TZ2) M to change/select world time zone M to select whether DST is observed (not available in TZ=local) M to set time zone name ▶ to increase, ◀ to decrease M to change 12/24 hr format .. ▶ to change, ◀ to change M to change 2 nd time zone(Repeat steps above) F return to time of day |

▶ go to page 10

Note: Your watch has 2 time zones. You can peek at the second time zone from the Time of Day display by pressing the **◀** button. To switch time zones simply hold **◀** button until you hear a beep.

WATCH SETTINGS (cont.)

| Press | To... | Then press... |
|--------------------------|------------------------------|---|
| | from Time of day | |
| | <i>for manual setting...</i> | Manual setting is not required when FLEXtime is used. |
| F <i>again</i> | Set watch time | <ul style="list-style-type: none"> ▶ to select timezone to set (TZ1 or TZ2) M to change seconds ▶ to zero, up ◀ to zero, down M to change hours..... ▶ to increase, ◀ to decrease M to change minutes..... ▶ to increase, ◀ to decrease M to change month ▶ to increase, ◀ to decrease M to change day ▶ to increase, ◀ to decrease M to change year..... ▶ to increase, ◀ to decrease M to set time zone name* ▶ to increase, ◀ to decrease M to change 12/24 hr format ▶ to change, ◀ to change M to change 2nd time zone(Repeat steps above) |
| | | F return to time of day |

▶ go to next page

* There is an alphabet/numbers which can be accessed to spell names and descriptions.

WATCH SETTINGS (cont.)

| Press | To... | Then press... |
|--------------------------|---|--|
| F <i>again</i> | Choose options* | <ul style="list-style-type: none"> NIGHT MODE option ▶ on/off M Time set by ▶ FLEXtime (recommended) ▶ User (turns FLEXtime off) ▶ Restart (resets and turns on FLEXtime) M Hourly chime ▶ on/off M Button beep ▶ on/off M Scroll speed ▶ slow/medium/fast F Return to time of day |

| F <i>again</i> | Return to Time of Day (See beginning of loop on page 9) | |

***Note:** See pages 8 and 38 for details on features.

RECEIVING AND READING A PAGE

When a page is received, the "new page received" message will be displayed, a tone will sound followed by a silent vibrate alert.

The silent vibrate alert will be activated if your pager is in silent mode.

| Press | To... | Then press... |
|--------------|--|---|
| any button | turn off alert on new page | |
| | read the page (message will begin to scroll) | to stop scrolling Press: to scroll forward to scroll backward (after scroll ends) to return to beginning of message |
| again | read next page(s)* (text messages will appear first, information feed will appear last) | |

—Return to time of day mode

***Hint:** If you press and hold you can quickly scan through all pages. Unread page numbers will flash.

Note: If a page is not read, a message will flash on the Time of Day display to remind you to read the page, and a periodic chirp (every 2 minutes) will sound for 30 minutes (if in audible mode).

DELETING/LOCKING A PAGE

When viewing a page you may: delete or lock (to prevent deletion)

| Press | To... | Then press... |
|--------------|--------------------|--|
| | delete a page | to delete or to escape |
| again | lock/unlock a page | to lock/unlock or to escape |
| again | delete all pages | to delete all unlocked/read pages or to escape confirm the deletion to escape |
| again | return to page | |

—Return to time of day mode

Hint: When you see this prompt = , press the Read button to complete the function shown. Similarly when you see this prompt = , press the button to complete the function shown. (A prompt is an instruction the watch is giving you to press the button shown at any time.)

PAGER FUNCTIONS

The Internet Messenger Watch has a **pager** mode which displays a **pager status message screen**.

(If you want to read the messages now, see page 12 for instructions).

| | from Time of day | |
|--------------------------|----------------------------------|--|
| M <i>once</i> | go to pager mode (status screen) | (Note: You can also read pages from pager mode by pressing A read, see page 12.) |
| F | turn pager on/off | A on/off A escape; returns to the status screen |
| F <i>again</i> | make pager silent/audible | A silent (vibrate)/audible (chirp/melody) A escape |
| F <i>again</i> | delete all read pages | A to delete all unlocked/read pages or A to escape A confirm the deletion A to escape |

| Press | To... | Then press... |
|--------------------------|--|---|
| F <i>again</i> | switch pager auto on/off* | A pager automatic operation on/off: press M to set the daily on time .. A to increase, A to decrease press M to change minutes A to increase, A to decrease press M to change am/pm A to change, A to change press M to set the daily off time .. A to increase, A to decrease press M to change minutes A to increase, A to decrease press M to change am/pm A to change, A to change press F to exit |
| F <i>again</i> | Switch pager alert | A melody 1 A melody 3 A melody 5 A silent (vibrate only) A melody 2 A melody 4 A chirp/vibrate (Vibrate will follow all melodies) |
| F <i>again</i> | See page status message screen (return to beginning of loop, see page 14) | |

M—Return to time of day mode

*See page 18 for explanation of pager auto on/off function.

ADDITIONAL PAGER FEATURES

NEW PAGE REMINDERS

- If a new page was not read when first received, the watch will alert you as follows:

| MODE | ALERT |
|-----------------|---|
| AUDIBLE: | one chirp followed by a reminder vibration every 2 minutes for 30 minutes |
| SILENT: | vibration every 2 minutes for 30 minutes |
| OFF: | no reminder when pager is off |

OTHER MESSAGE INDICATORS

- You can have different types of pages identified by the following designations at the beginning of the page:
(GRP) Group message (a message for a collection of users)
(DUP) Duplicate message (same message received more than once)

ERRORED DATA INDICATOR (❌)

- This symbol is displayed in a page message when potentially errored data has been received. Pause the page to view possibly errored characters.

MISSING CHARACTER INDICATORS

- If part of a message has not been received, <...> is displayed.

PAGER FULL

- This message will be displayed on the main screen when the pager is full. New pages will be received, which may delete the oldest, unlocked, read page.

OVERFLOW

- This message will be displayed when the pager is full and an unread page was deleted by a new page.

PAGE ORDER

Your pages will be displayed with the most recent page received first. The information service will always be the last message in the loop.

- 16 (most recent page)
↓
1 (oldest page)
Information Service(s)

AUTO ON/OFF

EXTEND YOUR BATTERY LIFE

- This function allows your pager to automatically turn on and off each day. This saves battery power. You can select the default setting of 6 AM on and 10 PM off, or set any auto on/off time you choose (see page 15 to activate). Pages will only be received when the pager is on.

READING INFORMATION SERVICE MESSAGES

Your Internet Messenger Watch will automatically receive daily Info Feeds from Yahoo!™

These info feeds will contain Yahoo! News, Entertainment, Weather and other regular updates. The symbol "i" will appear on your watch display, indicating receipt of an information feed. For a current chart of info feeds see <http://mobile.timex.com>.*

| Press | To... | Then press... |
|-------|--------------------|---|
| | from Time of day | |
| ▶ | see status screen | |
| ◀ | read the info feed | ◀ to re-read info message (You will see your pages after the info feeds.) |

Return to time of day mode

*These info feeds are free. An info feed schedule is available at <http://mobile.timex.com>.

Note: After the information feed is read, the "i" will disappear from the display until another information feed is received.

Hint: You do not need to delete an info feed as a new info feed will replace the old one.

HOW TO SEND CONTENT FROM THE INTERNET

In addition to receiving free daily Info Feeds from Yahoo!, you can choose to send personalized, customized Alerts to your Internet Messenger Watch from select Internet content providers, as long as you have a PC with Internet access.

Services include sending Internet e-mails to your watch, as well as news updates, sports scores, weather reports, stock quotes, flight info, horoscopes and more. Both the volume of content and the number of websites that support mobile devices will be constantly growing as the technology becomes more widespread.

"IT'S AS EASY AS 1...2...3!"

1 *First sign up with SkyTel for SkyWord alphanumeric service.*

You will be assigned a PIN #. You can send messages to your watch from:

- A "Send a message" page at www.timex.com or www.skytel.com. Enter PIN #
- Or, call 1.800-759-8888, and either leave a numeric or voice message
- Or, send info from Internet sites (go to #2 below). With SkyWord service, your pager PIN # is also your e-mail address for the watch, PIN#@timex.skytel.com.

2 *From your computer with internet access, you can browse any site that provides wireless service.*

Some examples of available mobile websites for you to use to send information to your watch: mobile.yahoo.com; mobile.msn.com; www.ebay.com/anywhere/; my.lycos.com. (For a complete list please check mobile.timex.com.)

Click on a site, register your logon and password and follow instructions.

3 *Let's try it to sign up for Yahoo! Alerts using this quick registration process:*

First, register your Timex Internet Messenger Watch for Yahoo! Alerts (one-time only)

1. Go to <http://mobile.yahoo.com/timex>
2. Click "Sign me up" (If you already have a Yahoo! ID, skip to #4)
3. Fill out the form: "Sign up for Yahoo! ID" and submit.
4. Enter the "e-mail address" you received from SkyTel (*Hint: your e-mail address is a 7 or 10 digit PIN# @timex.skytel.com*). Then click "Register your watch now."
5. A confirmation code will be sent to your watch. Enter this code in the space provided. Then, click "Verify."

Now you are ready to pick the Yahoo! Alerts you want to receive:

1. Go to <http://mobile.yahoo.com/alerts>
2. Choose an alert
3. Then, select details (frequency and times) for Alert delivery
4. Next, simply select "Timex" under Mobile Device
5. You're ready to get Alerts...Just click "Finished"

In the same way, other types of information can be selected, personalized and sent to your Internet Messenger Watch. You determine the frequency and content.

Note: *Internet content is usually free, but sending info to your watch counts as a message against your monthly SkyTel service allotment.*

Visit <http://mobile.timex.com> for all the latest sites and information.

SETTING THE WATCH ALARMS

There are 5 alarms available. They can be set as daily, weekday, weekend, weekly, monthly or yearly alarms.

| Press | To... | Then press... |
|-------------------|----------------------------|--|
| | from Time of day | |
| M twice | go to alarm mode | |
| ▶ | step thru alarm list (1-5) | F to edit unused alarm |
| F | arm/disarm selected alarm | ▶ arm/disarm ◀ escape  Indicates alarm is armed |

| Press | To... | Then press... |
|-------------------|--------------------------------|--|
| F again | edit selected alarm | hours flashing ▶ to increase, ◀ to decrease M to change minutes ▶ to increase, ◀ to decrease M to change am/pm ▶ to change, ◀ to change M to change alarm frequency ▶ to increase, ◀ to decrease (see page 24 for available options) weekly mode M to change day ▶ to increase, ◀ to decrease monthly mode M to change day ▶ to increase, ◀ to decrease yearly mode M to change month..... ▶ to increase, ◀ to decrease M to change day ▶ to increase, ◀ to decrease M to change alarm message ▶ to increase, ◀ to decrease continue to press M until name has been updated (8 characters available*) F to exit setting and arm selected alarm |
| F again | clear selected alarm | ▶ to clear ◀ to escape |
| F again | see alarms (beginning of loop) | |

M —Return to time of day mode

Note: When the alarm sounds, press any button to silence it. If you do not silence the alarm, it will continue for 20 seconds and a backup alarm will sound in five minutes.

* There is an alphabet/numbers which can be accessed to spell names and descriptions.

Hint: If you press **F** after changing any watch setting, the alarm message will appear. You have returned to the beginning of the loop. Press **READ ▶** to view a different alarm.

SETTING THE WATCH ALARMS

THERE ARE 6 OPTIONS FOR ALARM FREQUENCY:

"DAILY" – DAILY

This alarm can be used as a daily wake-up alarm, a daily task or a daily meeting reminder.

"WKDAYS" – WEEKDAYS (Monday-Friday)

This alarm setting can be used for work schedules, weekday meetings or weekday reminders. It will not be activated on the weekend.

"WKENDS" – WEEKENDS (Saturday and Sunday)

This alarm setting can be used for weekend appointments or reminders. Any weekend alarms will not be activated on weekdays.

"WEEKLY" – WEEKLY (once a week)

This alarm setting can be used for a weekly appointment or reminder on a specific day of the week.

"MNTHLY" – MONTHLY (once a month)

This alarm setting can be used as a monthly meeting reminder or a bill paying reminder, e.g. a monthly alarm set as MM/05 will be activated on the 5th of every month.

"YEARLY" – YEARLY (once a year)

This alarm setting can be used as a birthday or anniversary reminder, e.g. a yearly alarm set as 2/05 will be activated on February 5 each year.

Tip: A yearly alarm can be used as a one time appointment alarm.

USING THE CHRONO (STOPWATCH): BASIC FUNCTION

The Internet Messenger Watch has a full-featured **chrono (stopwatch)**.

| Press | To... | Then press... |
|---------------------|--|--|
| | from Time of day | |
| M 3 times | go to chrono (stopwatch) mode | |
| ◀ | start the chrono (stopwatch) (the ⌚ symbol will appear) | |
| ◀ | stop the chrono (stopwatch) | ▶ to continue timing on the chrono (stopwatch) ▶ and hold to reset the chrono (stopwatch) |
| ▶ (hold) | reset the chrono (stopwatch) | |

M – Return to time of day mode

Hint: You can leave the chrono (stopwatch) mode and the chrono (stopwatch) will continue running. The chrono (stopwatch) symbol will appear on the time of day screen as a reminder that the chrono (stopwatch) is running.

LAPS AND SPLITS

LAPS AND SPLITS

The chrono (stopwatch) is used to time an event, like a race. The total time and any intermediate times may be stored and later recalled.

Normally, the watch simply displays the total running time. If you wish to view and store intermediate times ("splits"), the watch will display lap times and split times. These are illustrated in the example below for a workout consisting of four laps around a track.

| LAP 1 | LAP 2 | LAP 3 | LAP 4 |
|----------|-----------|-----------|-----------|
| 7:11 MIN | 7:50 MIN | 7:08 MIN | 7:30 MIN |
| 7:11 MIN | | | |
| SPLIT 1 | | | |
| | 15:01 MIN | | |
| | SPLIT 2 | | |
| | | 22:09 MIN | |
| | | SPLIT 3 | |
| | | | 29:40 MIN |
| | | | SPLIT 4 |

Lap time: The time since the previous split.

Split time: The time from the start to the split.

(Notice the lap and split time are the same for lap 1.)

To Record Lap and Split Times

1. In chrono (stopwatch) mode, press  at the start of your event/training session.
2. Press  to take a split. The upper display will show the lap time, lower display will freeze temporarily to show the split time. (After 10 secs your watch will resume showing the current lap and split times on the display.)
3. Press  for each additional split (up to 8 laps/splits may be stored).
4. Press  to stop the chrono (stopwatch) at the end of the event/training session.

START OF EVENT

To Recall Laps and Splits

Pressing the  button in chrono (stopwatch) mode will allow you access (recall) laps stored. Press  repeatedly to see the laps and splits. (Your best lap will be shown first. This is the shortest time.)

LAP TIME
SPLIT TIME

The lap time is at the top of the display and the split time is shown below.

Note: You can stop timing by pressing  and continue by pressing . The time that the chrono is stopped will not be included in the lap or split times.

STORING AND RECALLING SPLITS

You can recall up to 8 laps and splits on your Internet Messenger Watch.

| Press | To... | Then press... |
|---------------------|---|---------------|
| | from Time of day | |
| M 3 times | go to chrono (stopwatch) mode | |
| ◀ | start the chrono (stopwatch) (the chrono (stopwatch) symbol  will appear.) | |
| ▶ | each time a split is taken (captured time is shown for 10 secs ( flashes), then running time is resumed, see page 26 for more on splits and laps) | |
| ◀ | stop the chrono (stopwatch) | |

| Press | To... | Then press... |
|----------|---|---|
| F | review the splits stored (RECALL) your best lap time will be shown (see page 26) |  |
| ▶ | review the laps stored | ◀ to review in reverse order |
| F | exit lap recall and go to last stop time on chrono (stopwatch) (no RCL will be shown in display) | |
| F | exit recall function, the last split time will be shown (no RCL will be shown in display) | press and hold ▶ to reset chrono, or ◀ restart chrono where you left off |

M — Return to time of day mode

Note: If laps are taken beyond the watches capacity to store them, only the last 8 laps will be stored.

Note: You may recall your splits in the middle of your workout, while the time is running. Only the completed laps will be shown.

USING THE TIMER

The Internet Messenger Watch contains a **countdown timer**.

| Press | To... | Then press... |
|---------------------|---|---------------------------|
| | from Time of day | |
| M 4 times | go to timer mode | |
| ◀ | start the timer (the timer symbol ⌚ will appear.) | |
| ◀ | stop the timer | ▶ to restart timer |
| ▶ | reset the timer | |

M —Return to time of day mode

Note: When timer alert sounds press any button to silence the alert.

Hint: You can leave the Timer mode and the timer will continue running. The timer symbol will appear on the Time of Day screen as a reminder that the timer is running.

USING THE TIMER – CUSTOM SET

You can custom set the timer for any time you would like up to 100 hours.

| Press | To... | Then press... |
|---------------------|------------------|---|
| | from Time of day | |
| M 4 times | go to timer mode | |
| F | go to Set Timer | hours flashing ▶ to increase, ◀ to decrease M to set minutes ▶ to increase, ◀ to decrease M to set seconds ▶ to increase, ◀ to decrease M to set status at end of timer ▶ stop at end of timer ▶ repeat at end of timer ▶ chrono (stopwatch) at end of timer F to exit setting |

USING THE TIMER – QUICKSET

The timer has been preset for intervals from 1 minute to 60 minutes.

| Press | To... | Then press... |
|-------------------|--|--|
| F again | to go to Quick 1 (1 min) again to go to Quick 3 (3 min) again to go to Quick 5 (5 min) again to go to Quick 10 (10 min) again to go to Quick 15 (15 min) again to go to Quick 20 (20 min) again to go to Quick 30 (30 min) again to go to Quick 45 (45 min) again to go to Quick 60 (60 min) | ▶ to select, ◀ to escape ▶ to select, ◀ to escape ▶ to select, ◀ to escape ▶ to select, ◀ to escape ▶ to select, ◀ to escape ▶ to select, ◀ to escape ▶ to select, ◀ to escape ▶ to select, ◀ to escape ▶ to select, ◀ to escape |

M – Return to time of day mode

ABOUT THE BATTERY

The battery is a size 675 common *zinc-air hearing aid battery, not a watch battery*. Expected battery life will vary depending on watch and pager usage. Battery life is approximately 2 months.

Energizer 675 battery cell recommended.

BATTERY INDICATORS

"Lo Battery":

Lo Battery will appear on the face of the watch every 2 seconds to indicate the battery is running low. Some of the watch's non-pager functions will be disabled, such as the INDIGLO night-light and all alerts will be shortened. You will continue to receive pages and be able to read them. The watch will continue to operate in this condition for a limited time after the appearance of the "Lo Battery" message.

What to do if "Lo Battery" appears:

Install a new battery as soon as possible following the instructions illustrated on page 2.

Important: Remove expired cells promptly to avoid leakage.

INFORMATION BACKUP WHEN CHANGING A BATTERY:

When you remove and replace the zinc-air battery in the Timex Internet Messenger watch, your valuable settings and messages are preserved by a special data back-up feature in the memory of the watch. So, time of day and date and alarm settings and messages are automatically saved:

1. **Once per day, or**
2. **When you lock/unlock a message, or**
3. **When you read any message or change a pager setting when "LO BATTERY" is displayed on the watch display when in time of day mode, or**
4. **When you change an alarm or time setting.**

Please try to replace your battery within a minute to ensure time of day accuracy. However, even if it takes several minutes or hours to replace the battery, the FLEXtime feature (if available in your area), will correctly set time and date once the battery is installed. Allow approximately 4 minutes for FLEXtime to update your time.

WATER RESISTANCE

Your Timex Internet Messenger Watch is rated to be "Splash-Resistant." Because the battery needs air to function, there is an air hole in the battery cover that will be compromised by submersion and water pressure. You may wear the Internet Messenger Watch in the shower, in the rain, while washing hands... but, like most pagers and cellphones, it is a sensitive communications device that you would not expect to use underwater.

Timex strongly recommends that you do not submerge the Internet Messenger Watch. If, however, the watch is accidentally submerged to a depth of 10 meters or less, please remove the battery cover and the battery, and allow the battery compartment to dry out. Then install a new battery. Your Internet Messenger Watch should continue to function properly.

Please refer to the chart (right) for recommended usage.

RECOMMENDED USAGE

| | Yes | No |
|------------------|-----|----|
| Splash resistant | ☰ | |
| Rain resistant | ☰ | |
| Hand washing | ☰ | |
| Showering | ☰ | |
| Swimming | | ✗ |
| Diving | | ✗ |

Note: Timex watches are not designed, and should not be used for diving.

ADDITIONAL WATCH FEATURES

INDIGLO NIGHT-LIGHT WITH NIGHT MODE OPTION

Once activated, any button pushed will cause the INDIGLO night light to stay on for 4 seconds. The NIGHT MODE feature is activated by pressing and holding the INDIGLO button for 3 seconds. The NIGHT MODE feature will stay activated for 7 hours or until you deactivate it by pressing and holding the INDIGLO button again for 3 seconds. When you read a page and the NIGHT MODE option is activated, the INDIGLO night light will stay on for 45 seconds while you read the page. NIGHT MODE can also be set from the Time of Day options function (see page 11 and previous pages to activate).

HOURLY CHIME (🎵)

Watch will chime on the hour (see page 11 to activate).

BUTTON BEEP

When activated, a beep will sound when pressing any button (see page 11 and previous pages to activate).

SCROLL SPEED

There are 3 options for scrolling message speed: slow, medium and fast. Select your choice in watch options (see page 11 to activate).

SECOND TIME ZONE

Press  from Time of day mode to peek at 2nd time zone.

Press and hold  for 6 seconds to change to 2nd time zone.

TIME OF DAY MODE RETURN

The watch will automatically return to Time of day mode after 45 seconds of inactivity (except in chrono or timer mode).

SPECIFICATIONS

Specs are style specific to P90091.

DIMENSIONS

Trim design: (diameter of 42mm (1.65in); thickness of 12.1mm (.48in)
Lightweight: (39.7gm. or 1.4oz. incl. strap & battery)

POWER SOURCE

Battery type: Hearing aid battery zinc-air #675 (Energizer recommended).
Battery voltage: 1.4 volts.
Memory backup: Yes.
Battery conservation: Auto on/off feature

WARRANTY INFORMATION

a Timex and Motorola joint venture

LIMITED WARRANTY

Beeper Paging Products LLC ("Company") warrants your watch, (the "Product"), against defects in material or manufacture under normal use for a period of one year from the date of original retail purchase. This warranty does not cover the battery, crystal, lens, or strap and is warranted by the Company, **not the dealer** from whom the watch was purchased.

This warranty shall not apply to defects resulting from improper or inadequate maintenance, modification or misuse, Company will not repair defects related to servicing not performed by Company or a Company certified repair center.

If this watch develops a defect within the one year period, other than evidence of tampering, misuse or alterations, Company will (except as indicated below), at its option, either repair or replace covered Product parts without charge, provided the Product is returned during the warranty period. All replaced parts (or if replaced in full, the Product) shall become the property of the Company.

COMPANY MAKES NO OTHER WARRANTY, EXPRESS OR IMPLIED WITH RESPECT TO THE PRODUCT. COMPANY DOES NOT WARRANT THAT MESSAGES OR DATE WILL BE DELIVERED TO THE PRODUCT OR THAT THE FUNCTIONS OF THE PRODUCT OR THE MESSAGES OR DATE IT RECEIVES WILL BE FREE FROM ERRORS, DELAYS OR INTERRUPTIONS. COMPANY SPECIFICALLY DISCLAIMS THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

ANY IMPLIED WARRANTIES THAT MAY BE IMPOSED BY LAW ARE LIMITED TO THE ONE-YEAR TERM OF THE EXPRESS WARRANTY PROVIDED ABOVE. Some states, provinces, countries, do not allow limitations in how long an implied warranty lasts, so the above limitation may not apply to you.

YOUR SOLE REMEDIES AND THE ENTIRE LIABILITY OF COMPANY AND ITS SUPPLIERS ARE SET FORTH ABOVE. IN NO EVENT SHALL COMPANY, ITS SUPPLIERS OR OTHER THIRD PARTIES BE LIABLE TO YOU OR ANY OTHER PERSON FOR ANY LOSS OF USE, LOSS OF TIME, INCONVENIENCE, COMMERCIAL LOSS, LOST PROFITS OR LOST SAVINGS OR OTHER DIRECT, INDIRECT, SPECIAL, PUNITIVE, INCIDENTAL OR CONSEQUENTIAL DAMAGES, WHETHER BASED ON CONTRACT, TORT OR ANY OTHER LEGAL THEORY. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.
